STEFAN LE
FRONTEND/BACKEND.NET DEVELOPER

INTRODUKTION:

Committed and positive system developer with a strong drive to solve problems in both frontend and backend development. I have a high work ethic and find it difficult to let go of work before a solution is reached.

Qualified system developer with expertise in frontend and backend development. I completed a TVET program in 2024 and am now seeking a workplace where I can apply my skills and knowledge of the latest technologies in system development.
